

IRole

```
classDiagram
    class IRole
    class SQLMembership_Identity_OWIN_Role["SQLMembership_Identity_OWIN.Role"]
    SQLMembership_Identity_OWIN_Role --|> IRole
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'IRole'. Below it is a larger box labeled 'SQLMembership\_Identity\_OWIN.Role'. A blue arrow points from the bottom of the 'SQLMembership\_Identity\_OWIN.Role' box up to the bottom of the 'IRole' box, indicating that 'SQLMembership\_Identity\_OWIN.Role' inherits from or implements 'IRole'.

SQLMembership\_Identity  
\_OWIN.Role
