

INotifyPropertyChanged

```
classDiagram
    class INotifyPropertyChanged
    class BindableBase
    class TodoListModel["Todo.WindowsPhone.Models.TodoListModel"]
    BindableBase --|> INotifyPropertyChanged
    TodoListModel --|> BindableBase
```

The diagram illustrates a class hierarchy. At the top is the `INotifyPropertyChanged` interface. Below it is the `BindableBase` class, which inherits from `INotifyPropertyChanged`. At the bottom is the `TodoListModel` class, which inherits from `BindableBase`. The inheritance is shown by blue arrows pointing upwards from the child class to the parent class.

BindableBase

Todo.WindowsPhone.Models.  
TodoListModel
